

## PURPOSE

### Research Question

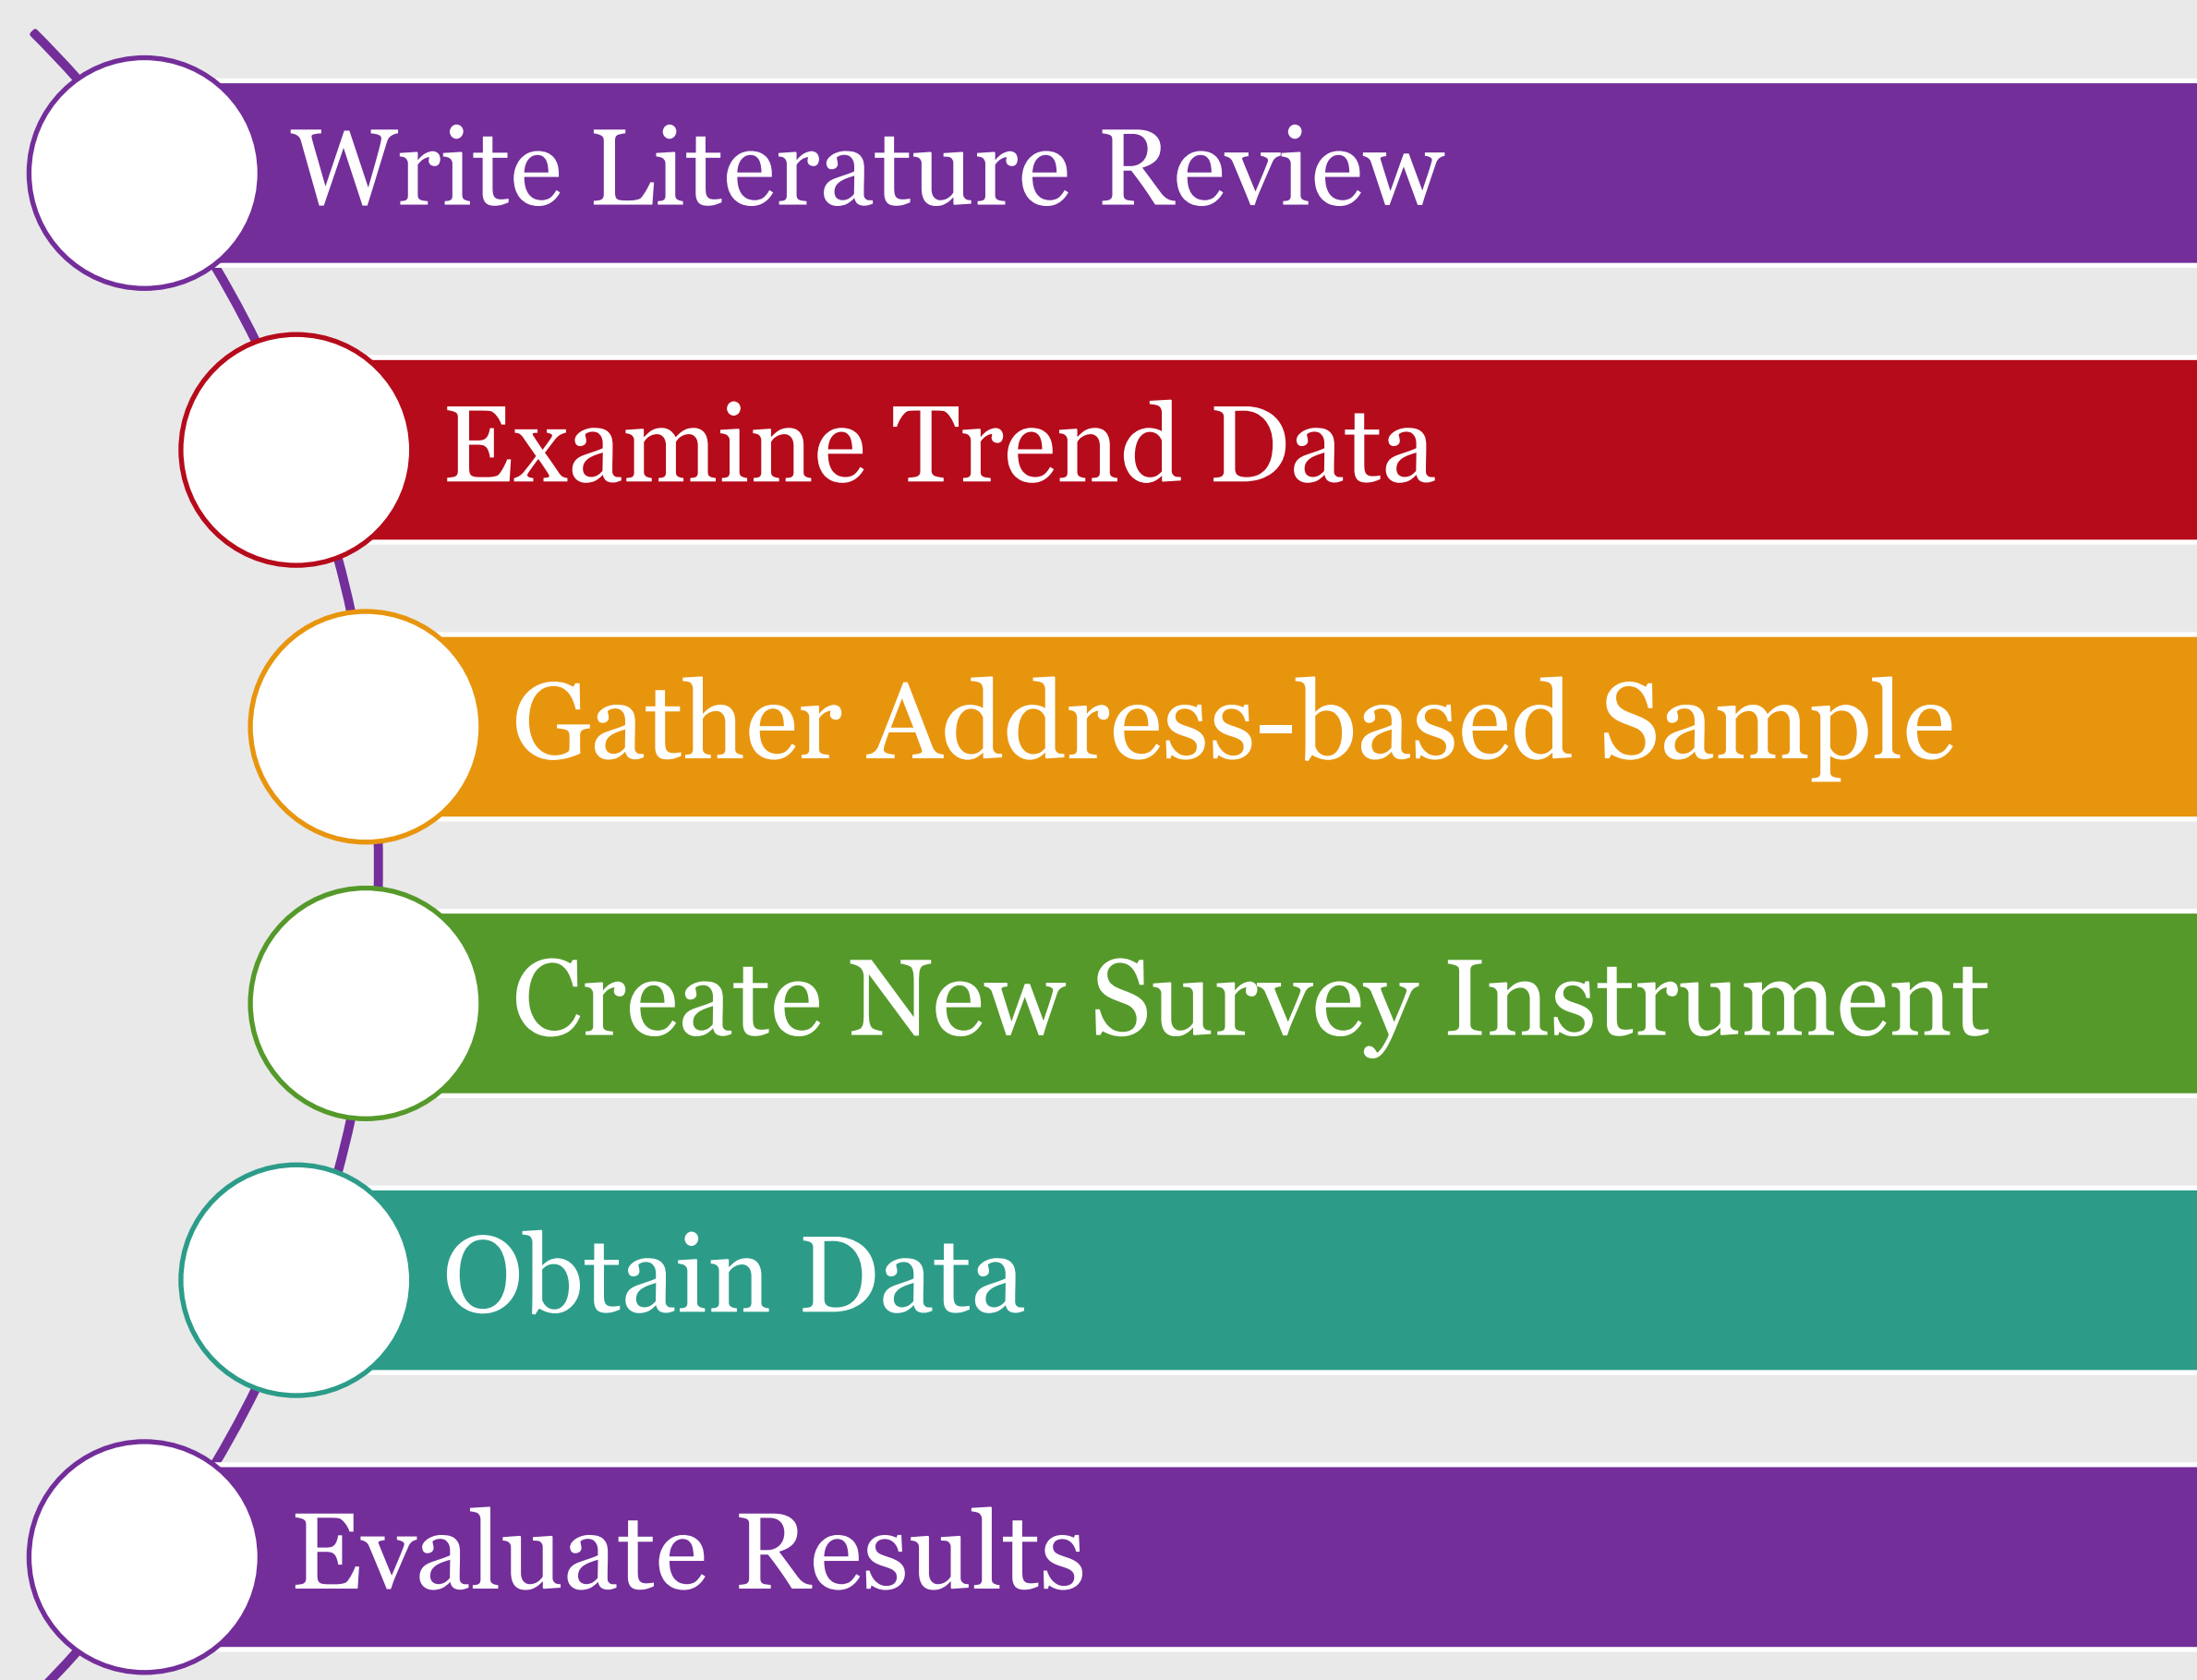

- Do racial disparities exist in access to health care in New Brunswick?

## SIGNIFICANCE

According to 2011 National Healthcare and Disparities Reports:

- **Blacks** had **32% worse access** to care than Whites.
- **Asians** had **17% worse access** to care than Whites.
- **Hispanics** had **62% worse access** to care than Whites.

## METHODOLOGY

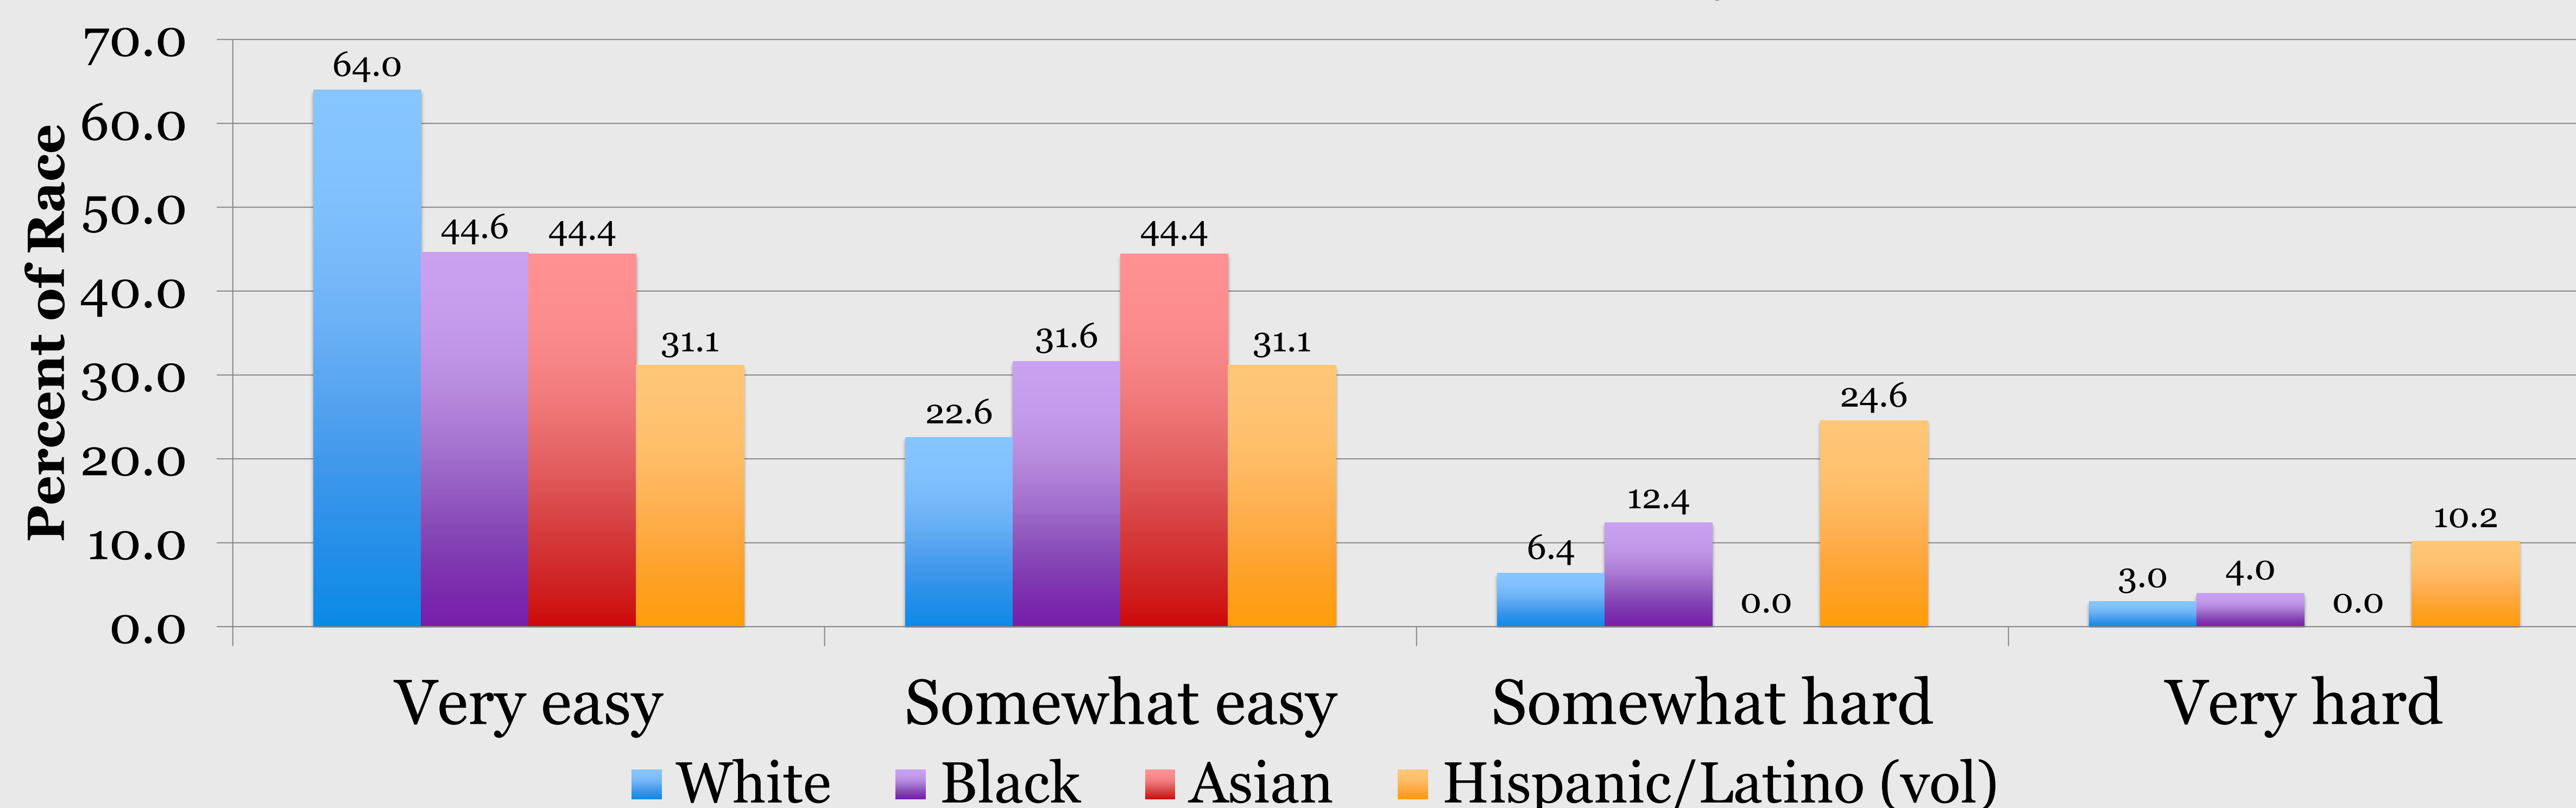

## OUTCOMES

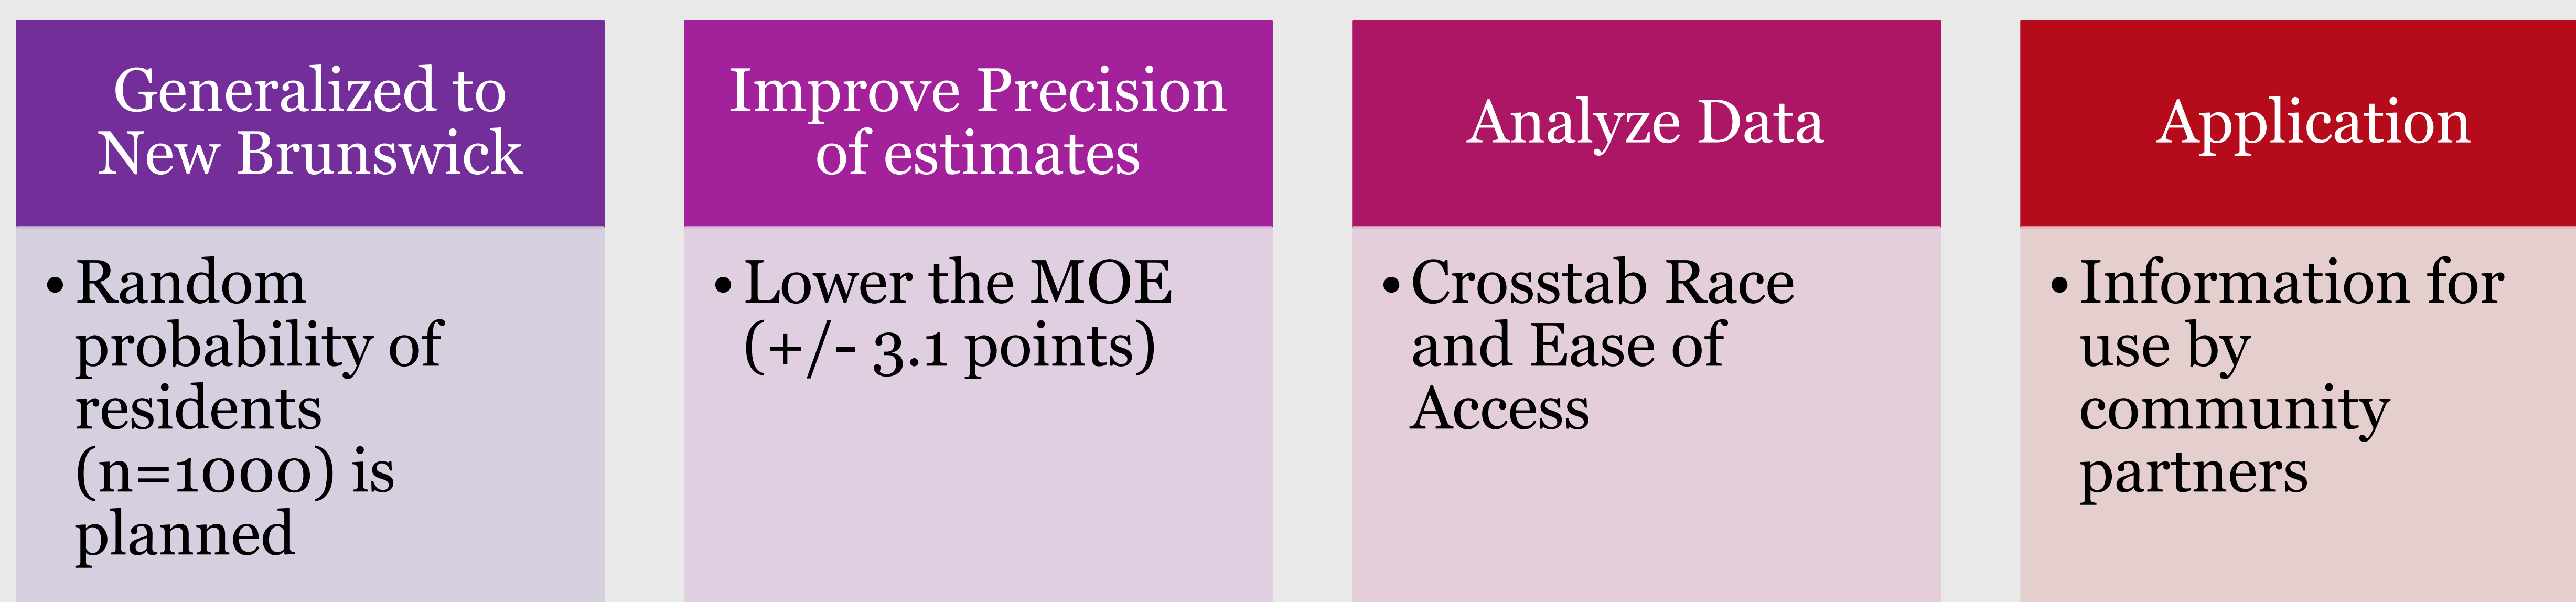

2016 final results will be fielded in **Mid-May 2016**

According to **2012 Report**:

**Ease of Access to Health Care by Race**

## EVALUATION

## ACKNOWLEDGEMENTS

Thank you to **Dr. Debra Borie-Holtz** and our **NBT Team** for helping in making this project a success.
